On the evening of April 2nd, 1872, the Trustees held the first meeting after the death of Samuel Gregory, M.D., who had been the Secretary and chief executive officer of the College from its inception and establishment. The following resolutions were prepared and unanimously adopted:

Whereas Divine Providence has removed to a higher sphere, Dr. Samuel Gregory late a member of the Board of Trustees of the New England Female Medical College and also Secretary of the same, and whereas his connection with this Institution from its incipience has been both vital and prominent, therefore

Resolved, that as one with whose the idea of a distinctive female Medical education first had birth, whether in the Old World or the New, as a gentleman of liberal culture, giving with rare qualities of unselfish gentleness and humility, efficient executive energies to a great life work, Dr. Gregory has well earned the high place which he must henceforth hold among the philanthropic benefactors of his race,

Resolved, that as Trustees of this Institution we shall, with so much of the public as know of its
2nd, 1872, meeting of the Board of Trustees of the Medical College.

Samuel Gregory, M.D., was re-elected President of the Board of Trustees.

The secretary of the meeting was Mr. W. W. Nelson.

Respectfully submitted,

W. W. Nelson, Secretary.

growth and history, ever cherish a grateful sense of our departed friend's self-sacrificing labors to build up this College (of which in an emphatic sense he was founder) from its day of "small things" to its present hopeful position for the future,

Resolved, that Messrs. Souther and Storrs be a Committee with power to procure and place within the College buildings a suitable tablet inscribed to the Memory of Dr. Gregory.

Resolved, that copies of these resolutions besides being offered for publication be sent to the members of the family of the deceased.

The following is the inscription on the tablet:

In Memory of
S A M U E L G R E G O R Y, M. D.
Died March 23, 1872.
Aged 58 years.

To his efforts is due the origin of the NEW ENGLAND FEMALE MEDICAL COLLEGE. Established in 1848. Incorporated in 1850. This building erected in 1870.

By his unceasing labors the Institution was sustained from its commencement to the time of his death.

This was the First Female Medical College ever established.
Mr. Spencer W. Richardson was elected Secretary in place of Dr. Samuel Gregory, of whose beneficent labors the College had so much reason to be proud. The death of Dr. Gregory was a great blow to the College; and the Trustees hardly knew what course to pursue. Upon the new building there was a debt of many thousands unprovided for, and the one who had always solicited funds for the institution was taken away. At this time a very large and successful fair was held in aid of the Massachusetts Homoeopathic Hospital, and it netted $76,000. A majority of the Trustees favored homoeopathy, and many of the contributors to this College who had been of the same school. Negotiations were entered into at once for placing the College in affiliation with the Hospital named, and a committee appointed to report what arrangements could be made for the mutual benefit of these institutions. While these negotiations were still pending, propositions came from some of the Overseers of Harvard University suggesting the uniting of this College with that University. Soon after this the great Boston fire so crippled the resources of Harvard University that notice was given of its inability to do anything for this College. Mean-
while Boston University had made arrangements to establish a medical department in connection with the Massachusetts Homoeopathic Hospital. In the following year upon the establishment of the school known as the Boston University School of Medicine and New England Female Medical College was joined with it, and in 1874 by an Enabling Act of the Massachusetts Legislature the two institutions were legally united.
